Report on Organization of [REDACTED] Businesses

1. At the time of the recent visit of the Assistant General Counsel, the legal aspects of the utilization of [REDACTED] corporation laws in solving certain operational legal problems was thoroughly discussed. Since that time, we have studied the [REDACTED] statutes with particular emphasis upon the subject of corporations and trusts. Attached to this dispatch are two copies of the contact report outlining the details of a visit made to [REDACTED] to study the on-the-scene practical approach to these questions. Our only question now remaining, is whether to utilize the services of [REDACTED] or to contact the proposed [REDACTED] lawyer directly. We will clear that matter with [REDACTED] and if it is found that the best approach is to the [REDACTED] lawyer direct, then we will proceed to initiate clearance procedures as outlined in paragraph 8 of the contact report.
